

## Challenge Project Pemdas

Nama: Kameliatuz Zahra  
NIM : 25031554263  
Kelas: 2025G

The image displays a Windows operating system desktop environment. Two identical windows of a Python application are open side-by-side. The application has a dark-themed interface with a grid layout. In the top-left corner of each window, there is a file tree view showing project files like 'main.py', 'grid.py', and 'grid\_item.py'. The main area of the application shows a grid of items, with one item currently selected. The status bar at the bottom of each window indicates 'REMINDER TUGAS'. The taskbar at the bottom of the screen contains several pinned icons, including Microsoft Office applications (Word, Excel, PowerPoint), a browser icon, and system icons like Task View, File Explorer, and Settings. The system tray shows the date and time as '12/19/2025 4:26 PM'.
